Behavioral Economics 4-Week Sprint Program Overview

As product and marketing leaders, you strive to understand what makes your customers tick. Behavioral Economics combines economics and psychology to help you understand why people make the decisions they do — and how to influence them for the better.

In this intensive part-time course, you'll learn our framework for behavior change. The same framework we taught to Google, the World Bank and hundreds of other companies.

Behavioral insights can improve all parts of your funnel, from value proposition and pricing, to acquisition and retention. With industry-leading Behavioral Scientists as your instructors, these courses will teach you things you can use today in your job but also throughout your career.

KEY BENEFITS

Upon completion of 4-Week Sprint, you will emerge fully trained with a robust set of behavioral science tools and solutions, including:

- Actionable insights on how to leverage behavioral science in your product and feature development
- ✓ The "3B framework" for behavior change, used by companies like Google and Paypal
- How to bring the art of experimentation into your product infrastructure and corporate culture
- Survey & experimental design methodologies, including statistical best practices

- Tools, like a behavioral diagnosis, that help you evaluate your current product experience and prioritize changes
- Materials to enable you to train the rest of your team
- How to use behavioral science ethically
- \checkmark Certificate of completion of the course

TESTIMONIALS

The best thing that has ever happened to me in 2019 is attending this program!

A great investment in quickly grasping Be principles and learning to apply them to your organization and life using a repeatable process.

A great opportunity to have deep learning in a short period of time and prepare you to be suited to diagnose, problem solve and build/drive experiments.

Program Format & Sample Schedule

The opening two sessions of the 4-Week Sprint will be in-person in San Francisco. Sessions 3 through 6 will be online.

The in-person sessions are full days with time spent in the classroom and on applying principles to real-life scenarios. We customize content based on the profile and background of the cohort, which is why we encourage multiple employees from the same company or business unit to attend.

Opening Sessions in San Francisco: SESSION 1-2	An Accelerated Deep Dive into Behavioral Economics
SESSION 3: Online	Engagement & Retention: Designing Products People Love and Stick With
SESSION 4: Online	Behavioral Marketing: How to Launch Products and Get Traction
SESSION 5: Online	The Psychology of Pricing
SESSION 6: Online	Behavioral Product Management Tools & Frameworks

Who Should Attend?

The Behavioral Economics 4-Week Sprint is the ideal opportunity for product leaders who are in a position to influence their organization's strategy and roadmap. You'll advance your career with a deeper and incisive understanding of customer psychology and drive your business results by immediately being able to apply learnings to your company priorities. This could look like:

- » Product managers
- » Product designers
- » Managers
- » Marketers

We are very interested in applicants who are working on products intended to improve their customers' health, wealth and happiness — individuals who will use behavioral science for good. Examples of questions behavioral science helps teams answer:

BERLIN

How would we **increase adoption** of mobile banking around the world?

How would we **design a new product or feature** that helps increase consumer financial health?

How would we **design a health product** to increase daily active use?

How should we **price our new-tothe world product** to fully capture demand?

Cutting-edge, engaging, and highly relevant to real-world business environments, I walked away with experiments I could immediately test with my team.

YOUR INSTRUCTORS

Kristen Berman

Kristen studies how people actually act in the marketplace, as opposed to how they should or would perform if they were completely rational. Kristen co-founded Irrational Labs, a non-profit behavioral consulting company, with Dan Ariely in 2013, to help companies leverage behavioral economics & increase the health, wealth and happiness of their users.

Evelyn Gosnell

Evelyn is the Lead Behavioral Researcher at Irrational Labs and frequent speaker in behavioral economics and consumer psychology. She is also the Head of Product Development and Behavioral Science at Shapa, an innovative health startup cofounded by Dan Ariely. Evelyn is an expert in helping companies use the science of decision-making to better understand how real people think and behave, thereby creating better products and services for them.

The course will also feature guest lecturers, including Dan Ariely.
